

COUNTY OF YORK

MEMORANDUM

DATE: March 23, 2005 (BOS Mtg. 4/5/05)

TO: York County Board of Supervisors

FROM: James O. McReynolds, County Administrator

SUBJECT: Procurement of Computer Network and Information Technology Equipment for the Hampton Roads Metropolitan Medical Response System

The Hampton Roads Metropolitan Medical Response System (HRMMRS) is a major initiative to ensure a robust medical response to the effects of a weapons of mass destruction/terrorism incident or other major disaster with a significant number of victims. The HRMMRS is a regional initiative for the 16 localities within the Hampton Roads Planning District Commission (HRPDC). As you know, staff of the Department of Fire and Life Safety has been directly involved in the development of the HRMMRS since its inception. As efforts began to provide the HRMMRS Metropolitan Medical Strike Team with computer network and information technology equipment, the Department of Fire and Life Safety enlisted the technical assistance of the Department of Financial and Management Services' Computer Support Services. With regard to this particular initiative, the Department of Fire and Life Safety, with the assistance of Computer Support Services, has been authorized by the HRPDC to procure (on behalf of the HRPDC/HRMMRS) computer network and information technology equipment for the Hampton Roads Metropolitan Medical Response System

If adopted, proposed Resolution R05-63 will accept and appropriate up to \$70,000 for computer network and information technology equipment as committed by the HRPDC and authorize the County Administrator to purchase the HRMMRS computer network and information technology equipment. I recommend approval of proposed Resolution R05-63.
